NUMBER

CHOOSEMATHS is a joint initiative of the Australian Mathematical Sciences Institute (AMSI) and the BHP Billiton Foundation

I always had aspirations of going to art school, as it turns out, my creative side and strength in design helped me to succeed in programming instead.

Nowadays I use my knowledge to empower young girls around the country to pursue a career in coding. Tech is not just for guys and now, more than ever, we need to arm our kids with digital literacy, mathematics and coding skills for the future.

My name is

ALLY WATSON

and that's why I CHOOSEMATHS, because it's **MORE THAN JUST NUMBERS**, it enables me to combine my love of art, design and technology to inspire the next generation of female coders.

ALLY WATSON IS A .NET DEVELOPER AT DEPEND, A DIGITAL AGENCY SPECIALISING IN DIGITAL STRATEGY IN MELBOURNE. SHE IS ALSO CO-FOUNDER OF THE SUCCESSFUL ORGANISATION CODE LIKE A GIRL.
