CHOOSE MATHS

AN **AMSI** SCHOOLS PROJECT

DELIVERED BY

SUPPORTED BY

I am more than a number

It's not exactly a natural progression to go from studying a maths degree to a nightly television program, but Letters and Numbers has given me the amazing opportunity to share the wonderful world of maths with the wider community.

People often have a perception of what a mathematician should be. I like to challenge that stereotype.

My name is

Lily Serna

and that's why I CHOOSE MATHS, because it's **MORE THAN JUST NUMBERS**, it's a way of teaching the brain to break down problems in a systematic and logical way.

LILY SERNA IS A MATHEMATICIAN AND DATA ANALYST AT ENTERPRISE SOFTWARE COMPANY, ATLISSIAN. SHE IS BEST KNOWN AS THE RESIDENT NUMBERS EXPERT ON SBS'S LETTERS AND NUMBERS WITH DAVID ASTLE AND RICHARD MORECROFT.
